Providing seamless, accessible innovations to audiences across the web. With a proven background in project management, design, marketing, and data analysis, I use creativity, focus, and empathy to help teams achieve their goals.

During my last 8 years in professional web development, I have worked in a variety of languages and architectures, from front-end consumer-facing platforms, to back-end data management technologies. My breadth of experience and strengths in programming fundamentals allow me to quickly learn new skills and apply successful strategies to any project.
