EXPERIENCE

Sallie Mae (SLM Education Services), Arlington VA — *Manager, Digital Marketing Operations*

JANUARY 2026 - PRESENT

- Enhancing customer-facing digital properties within Education Services, including the rebranded Sallie.com website, through AI-guided engineering, performance optimization, and usability improvements.
- Full-stack design and administration using HubSpot CMS, HubL/HTML, and JS, building reusable templates, modules, and UI extensions that form responsive, accessible web experiences.
- Collaborating with content, data, design, and testing teams to create new tools and services, leveraging Google Cloud Platform, Amazon Web Services, Figma, and Optimizely.
- Applying AI-assisted workflows using OpenAI Codex, accelerating code innovation and implementation.
- Facilitating knowledge sharing, task coordination, and project planning using Asana.
- Translating business and marketing objectives into products that strengthen brand engagement and visibility.

Capgemini USA, Cincinnati OH — *Senior Consultant*

OCTOBER 2018 - JULY 2025

- Lead developer in React, Angular, Azure, JS/HTML/CSS, and SQL.
- Agile Scrum engagement manager, overseeing multiple development streams, leveraging Jira,Trello, and GitHub, and delivering robust, fully-functioning sites and features per project deadlines and budgets.
- Mentoring team and client on UI, development, analytics, SEO, performance, and accessibility best practices; challenging colleagues to gain new skills in automation and AI; lead unit training sessions in continuous integration and deployment pipelines employing Azure DevOps.
- Pursuing contracts, defining project KPI's, and interviewing new employees.

SELECT PROJECTS

- **P&G Product Lifecycle Innovation - *Lead Developer***
  Oversaw Angular/Node.js applications on Azure IaaS, integrating MongoDB, MySQL, Office365, and SharePoint to streamline access, training, and support 40,000+ product life cycle technicians. Built REST APIs and automations using Python, PHP, and Power Automate; supported ServiceNow ITIL processes, analytics, search, security audits, and architecture planning.

- **Oral-B Smile Meter - *Lead Developer***
  Deployed a suite of Swift, React, Node.js, and Python applications for gamified brand experiences, guest registration, facial recognition, and interactive wall displays for P&G innovation centers in Asia, the Middle East, and North America; teamed with client, QA, and UX partners to create delightful customer-brand interactions.

- **HairCode.com Latin America - *Lead Developer***
  Incorporating Contentful CMS, ReactJS, Azure, Klaviyo CRM, and Google Analytics, introduced internationalized content to eight regions in Central and South America, increasing traffic 5x over its North American counterpart; worked closely with client partners, QA, and translation experts to solve foreign language needs and features.

- **HairCode.com North America - *Contributing Developer***
  Deployed Azure functions, CosmosDB, and scalable storage solutions to host a React hair quiz application with millions of visits and click-through traffic to brand and retail websites.

- **Pantene.com - *Contributing Developer***
  Helped migrate legacy Sitecore content to modern architecture using Contentful, React/Gatsby, and Azure; improved SEO Lighthouse scores, reduced site load times by 200%, and implemented Google Tag Manager.

United States Dressage Federation, Lexington KY — *Senior Website Programmer*

JULY 2011 - OCTOBER 2018

- Administered websites and databases using ASP.net and SQL; led a full site responsive redesign and learning management subsite projects; drove e-commerce, email campaigns, and reporting using MailChimp, Shopify, PDGCommerce, Gammadyne, and Amazon SES.
- Advised marketing on digital publishing and social media engagement, including transitioning the print magazine to digital and establishing web working groups.
- Provided staff IT and AV support and gathered member requirements at national conventions.

Magee-Womens Foundation, Pittsburgh PA — *Web Design Intern*

JANUARY 2008 - FEBRUARY 2009

Led web design and developed marketing and communication strategies for the Dan Berger Cord Blood program, coordinating wireframes, content hosting, and outreach materials regarding cord blood donation.

Carnegie Museums of Art & Natural History, Pittsburgh PA — *Customer Service Representative*

OCTOBER 2007 - JUNE 2011

Front desk ticket sales, visitor relations, and temporary exhibition maintenance; trained new employees in Paciolan ticket reservation system, switchboard operations, group registration, membership sales, and greeting.
